Dear Member:

The holiday season is an important and very special time of year. It gives each of us the unique opportunity to touch the hearts and souls of others. Every holiday we show our appreciation to those who are most important in our lives - often by choosing and giving a special gift designed to enrich and renew the spirit. When holiday shopping this year, remember the best holiday gifts are usually those that provide an immediate and lasting impact on someone's life. Of course, it's probably no surprise that finding that “special” gift is often easier said than done.

If you've grown tired of giving the same lackluster holiday gifts year after year, our newest DVD, 'I AM ONE,' is the perfect gift idea for 2005.

“An incredible Journey of the Heart, Mind and Spirit ...”

The I AM ONE DVD contains three truly unforgettable sequences. Each section is carefully arranged to help release the stresses of life through relaxing sounds and colorful images.

Sequence 1: Inspiration

This sequence includes three beautiful compositions combining vivid imagery with inspirational quotes and words of wisdom. Each selection is expertly synchronized to the music of the award-winning duo "2002".

Each 5- to 7-minute composition is an entertaining and powerful source of personal inspiration.

Sequence 2: Affirmation

Best described as "spirituality in motion", this beautifully rendered sequence contains 36 energetic affirmations of our divine nature, such as Love, Wisdom, Power, Abundance and Gratitude. These tranquil affirmations are beautifully displayed across a canvas of celestial paintings.

Sequence 3: Meditation

This final sequence contains six absolutely spectacular compositions designed for meditation, contemplation, and for sparking imagination and creativity. Each 5- to 7-minute track offers a unique perspective on our Universe. Sit back and enjoy magnificent landscapes from across the planet, go into orbit high above the Earth, and journey through space to distant galaxies.
