

MASS INSTANT MESSAGING SOFTWARE

The world's most powerful Mass Instant Messenger and online marketing system. No more headaches with spam complaints, angry ISPs, or hosting providers that don't allow mass marketing. Enjoy the benefit of INSTANT ACCESS to millions of 'ready-to-buy' prospects!

Join our e-newsletter for our latest updates.

Recent SPAM laws are making it increasingly difficult for e-marketers to generate quality leads. Why not simply avoid the pitfalls of mass email marketing? Now you can reach millions of online members instantly! - Avoid becoming yet another lost message in your customer's inbox or bulk folder.

UPDATE: US Congress to enact anti-spam legislation defining criminal guidelines - SUPER-BLASTER is 100% legal!

Promote your message or website safely to millions of recipients without worrying about fines and lawsuits. Plus, with Our Instant Messenger, you can reach your targets when they are actually online - giving you instant results!

Reaching thousands of online users is now literally a single mouse click away!

No special server configurations or hardware are needed - you can run our software from any Windows PC with Windows 98/ 2000, ME, or XP. Special settings allow you to connect to your remote server to send messages. Contact us for protected servers to run your messenger.

- OWN OUR SOFTWARE, and you can send a message through common proxies (to remain anonymous). You can also remotely connect to multiple servers for unlimited speed capability.
 - RENT OUR SOFTWARE and send thousands of messages per second (anonymously through our offshore servers).
 - Reach customers while they are online!
- Unlimited tech support and exclusive Member's Area to provide you with the newest tips and tricks to maximize your marketing efforts.

Dramatically crank up your sales by reaching customers when they are online and ready to buy. It utilizes state-of-the-art mass-sending technology and never exposes your IP address with anonymous sending through our offshore servers.
