

"Albert Mensah, One of the World's Leading Motivational Speakers and "The Prince of Possibilities" Reveals...

Saturday - April 3, 2010

Dear Friend:

What if I told you I could show you a **100% guaranteed** method to build a recession-proof business?

Would you be interested in learning more?

Let's face it... Who wouldn't?!!

Imagine being able to spend as much time with your family and friends as you want, or finally taking that vacation you've been putting off for years. Perhaps your dream is to retire early or simply work less every week. Whatever your personal or professional goals - you don't need to put them "on hold" any longer.

The fact is, as a Professional Speaker, you could earn as much as \$1,000 per hour (or more!) simply by following and reusing a proven, step-by-step blueprint.

As a Professional Speaker, you can finally end the frustration of working for unappreciative bosses or coworkers. And here's the best part -- You don't need any special skills, education, or background to become a first-rate speaker.~

That's Right. Practically anyone can master the art of speaking. It's simply a matter of understanding (*and reusing*) a proven and successful formula that has stood the test of time.

Because millions of businesses, schools, and organizations need to motivate and educate their staff and student body, the field of speaking continues to expand at an exponential rate. It's one of the few businesses that has actually thrived in a poor economy.

There's Really Only Two Ways You Can Build A Profitable Speaking Business:

Aside from hitting the lottery or a winning jackpot in Las Vegas, I know only two real methods to build a profitable speaking business.

Option #1: Do It All By Yourself:

This is most likely the way you're doing things right now... Or it's the approach you're likely to take because it's the only way you know.

Perhaps you've purchased or plan to purchase a few speaking books or CDs or participated in a few seminars to help get your speaking business up and running. So you shoulder the burden all on your own.

Don't get me wrong - while doing all the work yourself is noble - we both know it isn't the quickest way to grow your business and standard of living.

There's just no guarantee you'll stumble upon the "secret" to making it all fit together.

Option #2: Work With Someone Who's Actually Done It (and continues to do it!)

I've created and perfected an effective approach to creating truly memorable speeches that, quite frankly, no other professional Speaker has been able to duplicate. This is what sets my speaking techniques apart from anything else you're likely to find anywhere.

And, unlike other Speaking Consultants or coaches or courses - I've carefully organized all of my very best "insider" secrets into an easy-to-follow, blueprint for success.

Best of all - I can show anyone how to do the very same things I did...

My methods really aren't rocket science. They don't require any special education or any special background. Plus, I can show **ANYONE** how to do it in far less time than it took me - no matter where you are in your professional speaking career.

Even if you've never given a public speech before, my program can teach you the important steps to delivering a memorable speech to any audience.

Look, I know firsthand how difficult it is to build a new business from the ground up. For many years, I struggled to uncover the secret to making speeches that would keep my audiences and clients "coming back for more."

It was not until I understood the important components of a masterful speech that I began making serious profits! Now I speak to some of the largest and most prestigious organizations worldwide.

My clients include Starbucks, Boeing, Nordstrom, State Farm Insurance, Washington Mutual, Merrill Lynch, and Allstate (just to name a few). These businesses all represent happy clients who are eager to have me return as a guest speaker or presenter.

I've learned how to deliver life-changing messages that keep my audience engaged and inspired long after I've made my presentation. That's because my speeches are designed to transform

my audience's lives!

And here's the very best part... I can show you how to do the exact same thing!

... Speak To Riches!!

No matter the speaking occasion or how little time you have to prepare a speech, my new guide, *Speak to Riches! The Insider's Guide to Making Truly Memorable Speeches*, will help you prepare and deliver a powerful and successful speech every time.

With *Speak to Riches* close at hand, you'll find suitable openings and endings for every speech. Fresh quotes and pertinent talking points will give your entire speech substance and interest.

I've created helpful "speech modules" throughout the chapters that you can use "as is" or customize to your specific needs. These modules act as "instant speeches," or parts of speeches that you can use right away without changing them. You can easily customize them by adding quotes, anecdotes, or facts that fit your particular needs.

In short, my speech modules take the guesswork out of creating a memorable speech.

Best of all, I even include a complete section on my no-nonsense networking strategies. You'll learn how I build upon each speech I deliver and discover how I find new speaking engagements. Very, very few professional speakers are willing to share with you exactly how you need to find more work — but I am! I'll show you everything you need to know about finding new prospects — all written from my firsthand experiences.

No other speaking product I know of delivers everything you need to start making better, more empowering speeches, like *Speak to Riches! The Insider's Guide to Making Truly Memorable Speeches*

The entire program is carefully organized into four easy parts. Chapters 1 through 3 offer "how-to" tips and techniques—"the tricks of the trade"—for building and delivering confident speeches. Chapters 4 through 8 contain both "how-to" advice and "content" material that you can use in speeches for specific occasions.

I also even provide you with a host of materials that you can re-use in your speeches, presentations, and even in memorandums or office newsletters in Chapters 9-11.

With *Speak to Riches! In the Insider's Guide to Making Truly Memorable Speeches*, you'll receive step-by-step instructions on creating and delivering speeches that will keep your audience on the edge of their seats.

Includes:
